Winter Vacations are going to start but we have to make our vacations creative and productive for our kids. For the constructive utilization of time and energy of the students, following points must be considered:

- Create a Study Schedule that fits around your study plans.
- Use a personal planner or calendar to mark down your study times and assignments you have to do each day.
- Get rid of online distractions and social media platforms.
- Holiday homework should be done under parental guidance and not by parents.

- Inculcate the habit of reading in your child. Picture stories, magazines, comic books etc. could be given to the students to improve their reading skills as well as their understanding.
- Train your child to become independent in daily chores, praise their work and efforts.
